

Pend Oreille Conservation District

Proposal Submission Closed, Metaline Riverside Avenue Resiliency Phase I and Sewer Relocation Project (FEMA Project 4481-05) Status Update:

The Request for Proposals (RFP) for the Metaline Riverside Avenue Resiliency Phase I and Sewer Relocation Project (FEMA Project 4481-05) officially closed as of today, July 9, 2026 at 3:00pm.

The Pend Oreille Conservation District (POCD) would like to thank all the environmental consultancies and engineering firms that submitted proposals for this infrastructure resiliency project.

Next Steps:

Our evaluation committee is now beginning the review process. We anticipate making an official announcement regarding the received proposals following our internal review next Tuesday. Proposers selected to advance to the second phase, which will include interviews, will be notified directly by the district next week to schedule a time.

For any immediate inquiries regarding the procurement process, please contact the POCD Riparian Program Manager Directly at CoreyB@pocd.org
